RSL EXPANDS ITS PORTFOLIO

In 2016, RSL acquired the assets of GGI Limited, a market leader in the manufacture and supply of top quality Aluminium Windows and Doors, and other building products.

At this point, the company was able to expand its offerings into steel decking, as well as aluminium windows and doors.

Building on this aggressive growth strategy, RSL then focused on aligning itself with two more companies with complimentary offerings and acquired Relco Services Ltd and the assets of Lift-It Ltd.
